REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The present application contains 18 claims with 1 independent claim. Vis-à-vis Albertinetti et al'686, best reference of record, the present claim 1 distinguishes thereover in that the patent fails to teach or fairly suggest the arrangement of the addressable electrode and common electrode of each actuator element along a transverse strain axis from a proximate end to a distal end of the support structure. Further, the patent also lacks the teaching or suggestion on the addressable and common contacts of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571) 272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon and 8:00 p.m.
